

Crystal Protection Frame

Genuine Hand-Mined Black Obsidian & Amethyst · 1-of-1 · Limited to 50 pieces

\$195.00

MATERIAL DISCLOSURE — PLEASE READ BEFORE ORDERING

Stones are genuine, hand-mined natural crystal — Black Obsidian, Amethyst, Quartz and Fluorite — hand-set into an ultra-durable clear resin over a metal frame base, infused with premium gold shimmer. No carbon fiber is used. Because every stone is natural, each frame is a true 1-of-1: color, facet placement and shimmer will vary from the photos, and that variation is the product, not a defect.

WHAT MAKES IT 1-OF-1

- 100% genuine hand-mined crystals — never bulk-bought
- Hand-set stone by stone, no two layouts alike
- Premium gold shimmer infused through the resin
- Sealed for the road: rain, sun and car-wash safe
- Optional hand-stamped serial number on the back plate
- Only 50 will ever be made in this run
- Free U.S. shipping included

CARE & MAINTENANCE

- Hand wash with mild soap and water
- Touchless car washes are safe
- Do not pressure wash the stone face
- No solvents, acetone or abrasive polish
- Dry with a soft microfiber towel

IN THE BOX

- 1x crystal protection frame
- Mounting screws + caps
- Stone origin & care card
- Protective packaging

Stones for this frame were collected, cleaned and set by hand. Natural variation between pieces is expected and intentional — you are receiving a one-off.
