

Custom Laser Engraved Plate Cover

316L marine-grade stainless steel · Fiber laser engraved · Made to order

From \$69.99

MATERIAL DISCLOSURE — PLEASE READ BEFORE ORDERING

This cover is solid 316L marine-grade stainless steel — the same alloy used in luxury watchmaking, surgical tools and offshore hardware. It is NOT aluminum, NOT plated, and NOT carbon fiber. Your artwork is engraved into the metal with a fiber laser, so it can never peel, fade or wash off.

SPECIFICATIONS

MATERIAL	316L marine-grade stainless steel, solid stock
FINISH	Mirror-polished face, hand-deburred edges
ENGRAVING	High-precision fiber laser etched into the metal
TOLERANCES	Cut to 0.1 mm, edges hand-finished

STARTING PRICE	\$69.99 — varies with design complexity
SHIPPING	\$15 flat rate U.S. shipping
PRODUCTION TIME	Approximately 2 weeks (made to order)
FITMENT	Standard U.S. / Canada plate covers, bolt-on

WHAT'S INCLUDED

- Solid 316L stainless — never rusts, pits or peels
- Engraving is cut into the steel, not printed
- Custom design created for every single order
- Free digital proof sent before we engrave
- Hand-deburred, silky-smooth edges
- Hand-finished and professionally packaged
- Logos and vector artwork welcome

CARE & MAINTENANCE

- Wipe with a damp microfiber cloth
- Stainless-safe cleaner for water spots
- Car washes and road salt are safe
- Avoid steel wool and abrasive pads
- Buff dry to keep the mirror finish

IN THE BOX

- 1x engraved 316L stainless cover
- Mounting hardware
- Care card
- Protective packaging

Final pricing may vary with design complexity or custom requests. You approve a digital proof before any metal is engraved.
